JACKSON HOLE MOUNTAIN RESORT | Customer Service Rep

Teton Village, WY / 2014-2016

If you have a long and potted career history it is important to summarise. Keep it succinct, but most importantly keep it relevant.

- jQuery

// PROJECTS

CRYSTAL COLLECTOR

jQuery/ JavaScript/ Html/ CSS

- Interactive user game that dynamically generates random numbers for the user to guess and match.

TRAIN SCHEDULER

Firebase/ jQuery/ JavaScript/ Html/ CSS

- Employs Firebase and Moment.js to create a persistent train arrival time scheduling application.

GIPHY API APP

jQuery/ JavaScript/ Html/ CSS

- Employs ajax calls to successfully call the Giphy API and create a dynamic web page that populates with Gif's of the user's choice.

GET OUT AND EXPLORE

jQuery/ JavaScript/ Html/ CSS/ Materialize

- Collaborative group project
- Event finding application that incorporates multiple API calls. Allows the user to connect to a community anywhere around the world by dynamically updating the content of the webpage with events occurring in the desired search location.
- I worked primarily on the JavaScript, API, and jQuery functionality.
